21 Votes Go to content Hi, I am Zathong and this guide is by Drow Ranger Build in Dota 2. Best Drow Ranger construction guides for Dota 2 2022. I work hard to keep my Dota 2 builds and updated guides, and will help you create the best Drow Ranger build for the goal. Learn more about the abilities of Drow Rangers, Objects, Combos and Counters. Drow Ranger attack type: Melee RALLEGGIA WITH HER FROST-TIPPED ARROWS Drow Ranger Pro and against Good Hunter. Buffs other heroes at a distance. Decent farming. High damage to a single target. Powerful early pusher. Against Fragile and easily ganked. Animation attack slow. Depends on the attributes. No escape mechanism. Ultimate can be deactivated if the opponents get too close. Drow Ranger Articles build Initial Tango Healing Hail Iron Branch Iron Branch Early Game Power Magic Battery Bacchetta Wraith Band Wraith Band Core Articles Dragon Lance Manta Style Butterfly Complete Dragon Lance Manta Style Butterfly Hurricane Pike Aghanims Ethereal Scepter Power Blade Drow Ranger FROST ARROWS Adds a freezing effect to Drow's attacks, slowing enemy movements and inflicting bonus damage. Slowly lasts one, five seconds. GUST releases a wave that silences and repels enemy units. The line distance is relative to how close they are to Drow. Plumbing MULTISHOT. Drow releases a burst of arrows into continuous salvos, striking enemies for further damage and applying longer-lasting frost arrows. It lasts up to 1,8 seconds. The experience of Drow in battle gives you the opportunity to launch arrows with incredible accuracy and efficiency. It undermines the enemy's defenses, ignoring their basic armor. It offers Drow and his fellow heroes a bonus based on Drow's current agility. This ability is disabled if you are an enemy hero within a 400-radius. FROST ARROWS SHARD ABILITY UPGRADE Frost now apply a hypothermia stack to enemy heroes, reducing their regeneration by 10% per stack. Increases the damage by 5 per pile. It lasts 7 seconds. Seconds. an enemy hero dies with the Hypothermia stacks, explodes and treats 60 magical damage by stack and 40% slow for two seconds to the enemies in the 650-radius. Max. Stacks, seven. Causes Drow Ranger attacks to splash on the target, hit neighboring units with normal attacks that treat reduced damage. Drow Ranger's Skill Order Combo Drow Ranger Drow Ranger Tips and tricks Drow Ranger is usually played in the safe lane, with a support. Drow Ranger takes care of positioning, since its Marksmanship bonus is disabled if an enemy closes within 400 range. Drow Ranger is easily organized. Make sure you do not exaggerate if your support is not nearby. Rely on objects that help Drow Ranger keep his distance, such as Dragon Lance, Shadow Blade, Blink Dagger and Force Staff. Because of the damage bonus from its abilities, Drow Ranger is slightly less dependent on other door objects, but can still be closed in the initial game. Be careful not to take any unnecessary risks. Like other heroes at a distance, the stronger step is useful for Drow Ranger, but not important because of the slow by Cold Arrows. The Drow Ranger damages buildings, and should always capitalize on any possibility of taking down a tower. Counter Drow Ranger Bad versus: Faceless Void Tinker Arc Warden Tusk Good versus: Ember Spirit Dragon Knight Juggernaut Anti-Mage Drow Ranger Lore Drow Ranger name given is Traxex-a name well suited to short, trollish, rather repulsive Drow people. But Traxex is not a Drow. His parents were travellers in a caravan set up by bandits, whose noisy slaughter of innocents provoked the wrath of the quiet people of Drow. After the battle settled, the Drow discovered a little girl hiding in the ruined carts, and agreed that she could not be abandoned. Even as a child, Traxex was naturally adept at the arts that have won: Stealth, subtlety. In spirit, if not in physicist, it may have been an arrow arrow returned to his rightful home. But as she grew up, she towed over her family and came to think of herself as ugly. After all, its characteristics were smooth and symmetrical, entirely free of warts and coarse mustaches. Extracted from his adopted tribe, he retired to live alone in the woods. Lost travelers who find their way out of the forest sometimes talk about an incredibly beautiful ranger who peered them from the depths of the trees, then disappeared like a dream before they could get close. Lothe and stealthy, hot ice, moves like fog in silence. That whisper heard his icy arrows find the heart of an enemy. Expert Wingman Tier List Patch 1.5.78: list of mobile Legends levels.
